ABSTRACT

Providing the framework for recommendations and the administrative policies of the Missouri Coordinating Board is a set of public policy goals for higher education. The 1988-89 statistical summary includes updated tables from the 1987-88 summary and new tables that report data frequently requested by members of the Coordinating Board, staffs of colleges and universities, state government officials, and the general public. New tables have also been included for Missouri's independent colleges and universities. The summary is organized according to several dimensions associated with the Coordinating Board's Statewide Indicators of Institutional Effectiveness. Five sections are as follows: preparation (ACT scores and high school rankings); access (fees and financial aid); participation (enrollment, enrollment by age, enrollment by gender and ethnicity, and enrollment by geographic origin); resources (faculty and staff, faculty and staff ratio to full time equivalent students, finances, and libraries); and completions (degrees conferred by level, degrees conferred by discipline areas, and degrees conferred by gender and ethnicity). Three appendices are: Missouri higher education directory of institutions, presidents and campus coordinators of DHE/IPEDS surveys; maps showing locations of Missouri colleges and universities; and footnotes. FOREWORD

Judy Vickrey
Interim Commissioner of Higher Education

Providing the framework for recommendations and the administrative policies of the Missouri Coordinating Board is a set of public policy goals for higher education. These goals include providing financial access for Missouri citizens to the system of higher education, promoting quality as defined by institutional purpose and as measured by institutional outcomes, and ensuring the efficient and effective use of state resources within the system of higher education. One strategy the Board uses to obtain these goals is promoting the diversity which exists among the state's colleges and universities. Clearly, a measure of the Board's success in realizing its goals and the merit of its strategies is reflected through these data which show Missouri's system of higher education to be, indeed, diverse.

The **1988-1989 Statistical Summary** includes updated tables from the 1987-1988 Summary and new tables which report data frequently requested by members of the Coordinating Board, staffs of colleges and universities, state government officials and the general public. In addition, new tables have been included for Missouri's independent colleges and universities to more completely profile Missouri higher education.

The **1988-1989 Statistical Summary** has been organized according to several dimensions associated with the Coordinating Board's Statewide Indicators of Institutional Effectiveness. Thus, the user will find the data are ordered along dimensions of Preparation, Access, Participation, Resources and Completions. A table numbering system also has been developed for the **1988-1989 Statistical Summary**. Tables numbered with a zero (0) suffix report statewide data, while tables with a one (1) suffix report data for public colleges and universities, tables with a two (2) suffix report independent college and university data, and tables with a three (3) suffix report data for professional/technical institutions (e.g., X.0, X.1, X.2, X.3).

A list of the campus coordinators for the Board's DHE/IPEDS data collection surveys has been included in this Statistical Summary. The Summary would not have been possible without the assistance of these conscientious professionals on the campuses of Missouri's colleges and universities. The help of these individuals is vital to the Board's data collections and related reports. Their assistance is greatly appreciated.

Footnotes

Table 2.1: Public and state first-time degree-seeking freshmen totals will not match totals on Table 27.1 because of discrepancies between the number of first-time degree-seeking freshmen reported by Lincoln University on the DHE 06 (457) and DHE 07-1 (416) forms.

Table 8.2: Independent and state undergraduate headcount totals will not match totals on Tables 31.2 because of incomplete DHE 07-1 data from St. Louis University. Also, independent and state undergraduate totals will not match totals on Tables 9.2, 19.2 and 31.2 because of discrepancies between data reported by Park College on their DHE 02-41 (4,738 undergraduate students), DHE 07-1 (4,738 undergraduate students), and Fall Enrollment (EF1 - 1,592 undergraduate students.)

Table 9.1: Public and state FTE totals will not match totals on Table 39.1; West Plains has not been included on Table 39.1

Table 9.2: Independent and state undergraduate headcount totals will not match totals on Table 31.2 because of incomplete DHE 07-1 data from St. Louis University.
